Introduction

Passionate and performance-driven React Native & Full Stack Developer with 4.5+ years of experience building scalable, AI-powered applications across fintech, OTT media, and SAP-based enterprise environments. Proven track record of delivering robust mobile and web solutions using React Native and the MERN stack.

Experience

Senior Software Engineer   *Sept 2024 – Present*
Innovapptive Inc., Hyderabad

- Integrated AI-driven capabilities in iMaintenance App (React-Native) to auto-generate issues and work orders (with SAP).
- Leading end-to-end development of the iMaintenance app, a workforce management solution seamlessly connected with SAP for field operations and asset management.
- Diagnose and resolve intricate technical issues promptly, maintaining system reliability and performance.
- Participated in code reviews and mentored junior developers, improving code quality and team standards.

Software Engineer   *Apr 2024 – Aug 2024*
Ambak, Gurugram, Haryana

- Built 'Sathi' React-Native app for partner onboarding.
- Designed and implemented 'Bank Rule Engine' (BRE).
- Contributed to the development of Partner Micro Sites for partner engagement and retention.

Software Developer   *Mar 2022 – Mar 2024*
Cutting Edge Digital Pvt. Ltd. (Mogi I/O), Delhi

- Developed and maintained an OTT SaaS platform and mobile app using React Native and MERN stack.
- Built and optimized core modules (Social auth, Google AdMob, In-App purchase, Payment gateway, In-App Update etc).
- Collaborated with cross-functional teams to deliver production-ready OTT mobile and web solutions, enhancing user engagement and retention.

WordPress & Ionic Developer   *Dec 2020 – Nov 2021*
ITCell, Lucknow

- Developed Android apps using Ionic Framework.
- Designed and deployed WordPress-based websites.
- Managed deployment and testing on production environments.
